Engineering Cycle in Computer Science

Higher Institute of Computer Science and Multimedia of Sfax 2021-2024

Licence in Computer Science

High School 25 Juillet 1957, Sfax 2020-2021

Bac Final Grade: 13.65

PROFESSIONAL EXPERIENCE

PFE internship: February 2024-May 2024

HTSOFT , Sfax

Development of an innovative website for quality management. This site integrates ISO standards, audit results, and centralizes data. It is multilingual and utilizes the following technologies: **React, TypeScript, .NET, MySQL**, and the **Redux** library.

- Implemented a secure authentication system.
- Translated the website into eight languages.
- Developed a general function to create multiple tables in a short time.

Freelance: December 2023 - February 2024

Mammut Web Solutions, Würzburg, Germany

I developed a website for this company, showcasing its services and integrating various features such as an online application space. Using **React , .NET and MySQL** technologies, I ensured optimal performance and managed hosting on **OVH** servers.

Summer internship: August 2023

ECO-Cloud , Sfax

I Developed a "To-Do" web app with Postgres, Express, React, and Node. an efficient tool for organizing time and tasks. Users can format and manage tasks effortlessly.
